		PAGE
Amis, F. H.: Broadcasting in South Africa	January, 1925	209
Auditory Masking and Dynamics of the Inner Ear, by R. L. Wegel and C. E. Lane	July, 1924	43
Bell, J. H.: Metallic Polar-Duplex Telegraph System for Long Small-Gage Cables	April, 1925	276
Branson, D. E.: Metallic Polar-Duplex Telegraph System for Long Small-Gage Cables	April, 1925	276
Broadcasting in South Africa, by F. H. Amis	January, 1925	209
Byng, E. S.: Some Considerations Regarding Rural Telephony in the United Kingdom	January, 1925	213
Capen, W. H.: Telephone Transmission Maintenance Practices	April, 1925	246
Carrier Telephone Equipment for High Voltage Power Transmission Lines, by N. H. Slaughter	October, 1924	127
Carson, J. R.: Selective Circuits and Static Interference	April, 1925	267
Carty, J. J.: Science and Business	July, 1924	3
Deakin, G.: No. 7-A. Machine Switching System	January, 1925	153
Dependence of the Loudness of a Complex Sound Upon the Energy in the Various Frequency Regions of the Sound, The, by H. Fletcher and J. C. Steinberg	January, 1925	203
Description of Damage Done by the Earthquake to Wired and Wireless Telegraph and Telephone Installations of Japan, by S. Inada	October, 1924	79
Dodge, H. F.: The Stethophone	October, 1924	106
European International Telephony, by F. Gill	July, 1924	22
Field, J. C.: Supervisory Systems for Remote Control	October, 1924	134
Fletcher, H.: The Dependence of the Loudness of a Complex Sound Upon the Energy in the Various Frequency Regions of the Sound	January, 1925	203
Feland, H. S.: Telephone Circuits Used as an Adjunct to Radio Broadcasting	January, 1925	194
Full Automatic Telephone System in Kristiania-Norway, by M. L. Kristiansen	April, 1925	231
Gifford, W. S.: Some Fundamental Facts Regarding Telephone Rates	January, 1925	190
Gill, F.: European International Telephony	July, 1924	22
Hamilton, B. P.: Voice-Frequency Carrier Telegraph System for Cables	April, 1925	288
Hartley, R. V. L.: The Transmission Unit	July, 1924	34
Inada, S.: Description of Damage Done by the Earthquake to Wired and Wireless Telegraph and Telephone Installations of Japan	October, 1924	79
Jewett, F. B.: Making the Most of the Line	July, 1924	8
Jillard, A. G.: Restoration of the Works of the Nippon Electric Company	October, 1924	103
Kipping, N. V.: Wave Form Examination with Cathode Ray Oscillograph	July, 1924	69
Kristiansen, M. L.: Full Automatic Telephone System in Kristiania-Norway	April, 1925	231

		PAGE
Lane, C. E.: Auditory Masking and Dynamics of the Inner Ear	July, 1924	43
Latham, J. C.: Modern Methods in Train Dispatching	July, 1924	57
Long, M. B.: Voice-Frequency Carrier Telegraph System for Cables	April, 1925	288
Making the Most of the Line, by F. B. Jewett	July, 1924	8
Metallic Polar-Duplex Telegraph System for Long Small-Gage Cables, by J. H. Bell, R. B. Shanck and D. E. Branson	April, 1925	276
Modern Methods in Train Dispatching, by J. C. Latham	July, 1924	57
Mougey, W. E.: The Testing of Long Distance Telephone Cable During Installation	January, 1925	219
New Keyboard Perforator for the Baudot Printing Telegraph System, by A. E. Thompson	April, 1925	295
No. 7-A. Machine Switching System, by G. Deakin	January, 1925	153
Nyquist, H.: Voice-Frequency Carrier Telegraph System for Cable	April, 1925	288
Phelps, W. A.: Voice-Frequency Carrier Telegraph System for Cable	April, 1925	288
Pocock, L. C.: Telephone Transmission Standards in Europe	July, 1924	28
Restoration of the Works of the Nippon Electric Company, by A. G. Jillard	October, 1924	103
Rose, A. F.: Telephone Circuits Used as an Adjunct to Radio Broadcasting	January, 1925	194
Science and Business, by J. J. Carty	July, 1924	3
Selective Circuits and Static Interference, by J. R. Carson	April, 1925	267
Shanck, R. B.: Metallic Polar-Duplex Telegraph System for Long Small-Gage Cables	April, 1925	276
Sivian, L. J.: A Telephone Transmission Reference System	October, 1924	114
Slaughter, N. H.: Carrier Telephone Equipment for High Voltage Power Transmission Lines	October, 1924	127
Some Considerations Regarding Rural Telephony in the United Kingdom, by E. S. Byng	January, 1925	213
Some Fundamental Facts Regarding Telephone Rates, by W. S. Gifford	January, 1925	190
Steinberg, J. C.: The Dependence of the Loudness of a Complex Sound Upon the Energy in the Various Frequency Regions of the Sound	January, 1925	203
Stethophone, The, by H. F. Dodge	October, 1924	106
Supervisory Systems for Remote Control, by J. C. Field	October, 1924	134
Telephone and Telegraph Statistics of the World	October, 1924	145
Telephone Circuits Used as an Adjunct to Radio Broadcasting, by H. S. Foland and A. F. Rose	January, 1925	194
Telephone Transmission Maintenance Practices, by W. H. Capen	April, 1925	246
Telephone Transmission Reference System, A, by L. J. Sivian	October, 1924	114
Telephone Transmission Standards in Europe, by L. C. Pocock	July, 1924	28
Testing of Long Distance Telephone Cable During Installation, The, by W. E. Mougey	January, 1925	219
Thompson, A. E.: New Keyboard Perforator for the Baudot Printing Telegraph System	April, 1925	295
Transmission Unit, The, by R. V. L. Hartley	July, 1924	34
Voice-Frequency Carrier Telegraph System for Cables, by B. P. Hamilton, H. Nyquist, M. B. Long and W. A. Phelps	April, 1925	288
Wave Form Examination with Cathode Ray Oscillograph, by N. V. Kipping	July, 1924	69
Wegel, R. L.: Auditory Masking and Dynamics of the Inner Ear	July, 1924	43

Printed in U. S. A.
